

## Pretax Program Vendor: Sound Benefit Administration

Sound Benefit Administration provides knowledgeable guidance for a complex market.

### Why I recommend Sound Benefit Administration:

- Long-term vendor, with over 20 years of experience growing and adapting to ever-changing Federal regulations.
- A local Washington state administration firm specializing in FSA, HRA, HSA, and COBRA.
- An integrated approach that ensures clients who offer FSA health reimbursement accounts are in full compliance with COBRA rules.
- They help members sort through the quagmire of a complex market. Have an HSA plan with both an HRA post-deductible bridge and an employee-funded HSA account? Do you know which reimburses first? They do.
- Their entire staff is committed to providing boutique assistance to every program and client under their care.
- They have partnered with HSA Store and FSA Store to help employees purchase qualified 213(d) products, which provides peace-of-mind when employees are unsure if certain items are included in the 213(d) government-approved list.
